DETAILED ACTION

Remarks

1. In view of amendments and the indicated allowable subject matter in the final Office Action, dated 5/15/2003, the Examiner withdraws the objection to claims 26 and 27. The cancellation of claim 24 has put all the remaining claims in a condition for allowance.

Allowable Subject Matter

2. Claims 4,6-9,15,16,26,27,29 and 30 are allowed.

3. The following is a statement of reasons for the indication of allowable subject matter: the prior art of record does not show a rotary electric motor in which the stator poles and rotor magnet poles are aligned in axial direction. Each row of stator poles are electromagnetic isolated from each other and when energized, the center poles are in opposite magnetic polarity to the lateral poles. A rotor comprising a plurality of axial rows of permanent magnet is coaxially disposed about the stator, each axial row comprising a center magnet of one magnetic polarity and at each axial side thereof, a lateral permanent magnet of a magnetic polarity opposite to the polarity of the center magnet, a back iron in which the permanent magnet are mounted, the back iron ring comprising a plurality of discontinuous segments, each segment having mounted thereon a corresponding axial row of permanent magnets to permit flux path concentration.
